

Addison Fabricators, Inc.

We manufacture ASME Code pressure vessels, tanks, and lumber treating equipment. We have Quick Opening Hinged Closures of various sizes in stock or we can custom fabricate to meet your needs.

Quick Opening Hinged Closures Page #1, Swing Cylinder Page #2, Bridge Rails Page #3 & #4, Overhead Counterweight Door Page #5, Hydraulic Controls Page #6, and Completed Cylinders Page #7.

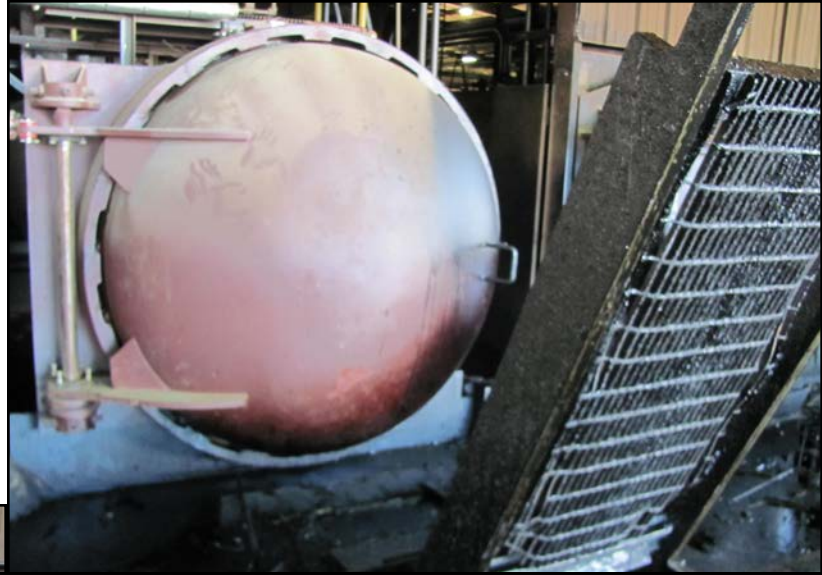

Swing Cylinders

Bridge Rails

Bridge Rails

Overhead Counterweight Door

Hydraulic Controls

**Remote control assembly
for locking ring, swing
cylinder, and bridge rails.
Allows the operator to
control all the functions of
the treatment cylinder from
25 feet or more away, as is
necessary under the new
EPA regulations.**

Completed Cylinders

We can custom fabricate new treatment cylinders to meet your specific needs. We also have the "R" Code stamp which allows us to work on and repair existing vessels both in our shop and in the field.
